CONSULTANCY

“Crucially, they improved speed of service for cocktail preparation. Control improved and our bar revenue out-performed budget, so we got our ROI.”

PRE-OPENING AND SUPPORT

We understand the pressures of delivering a premium beverage product right from day one. Our attention to detail, commitment to hands-on implementation, adaptability to regional and logistical challenges and uncompromising quality standards allow us to offer unrivalled support for your team from project to operation.

- We will develop and implement a signature beverage product in line with your property's concepts, location and luxury status
 - We provide comprehensive theory and practical training for selected beverage staff including Fling Bar Services' signature training courses and content
 - We provide support for the organisation and delivery of pre-opening events and an immediate response to the unforeseen issues that occur during opening and pre-opening programmes
 - We can create detailed outlet-specific operational manuals to ensure the consistent and sustainable delivery of all standards and procedures implemented by our team during the opening period
-

"Fling have a passion for creativity that has led to a range of innovative cocktails in our properties that neatly match the venue concepts"

"Our award winning team have many cocktail competition & industry accolades including finalists in the "educator of the year" category at Imbibe Magazine's awards."

BEVERAGE MANAGEMENT

As your beverage management representative, our responsibility is to work with your venue, property or group to deliver improved beverage revenues through marketing promotions, menu and drink development, and training. Ensuring customers have awareness of opportunities and driving beverage sales and profit.

As an independent company, we would be able to work with all local suppliers to ensure that the brand marketing opportunities and venue promotional activities and beverage revenues are maximised.

CONCEPT DEFINITION

Looking for the right concept for your venue? Our senior team provide brand-defining concept development for beverage outlets, bars and bar/restaurants.

Through analysis of our clients requirements and appraisal of the project information, we conduct thorough market research of existing venues in the catchment area and consider local and regional culture, guest mix and potential footfall to create the concept profile, identity and USP's. From this, the philosophy, business forecasts, staffing and operational recommendations are outlined.

BAR DESIGN

We bring first hand experience of what works and is needed for a bar to run efficiently and effectively. Having worked on many styles and shapes of bar from hotel lobby, to beach bar, to destination urban chic. Be it a long bar, island bar or dispense we can support your designers with industry expertise. We will review concept design, review design layout for bar area in detail, and comment on a large equipment selection.

MENU DESIGN

The menu is often the first interaction your guest will have with your beverage product. While it is important to ensure your drinks are great, we believe that the visual impact is as important as the written word. It has been well established that the design and layout of a menu can affect your guests' choices and that, with a bit of planning, your menu can increase turnover without any change in food and beverage costs. This becomes especially relevant in the hotel and resort sector where table service is de rigueur and the majority guests never actually make it to the bar. As the menu is often the only interaction your guests will have when choosing their libation, it is an important tool in getting across the information you want them to have.

COURSES

"The training was able to set some sleeping souls on fire and taught beginners a lot of interesting new things about the products."

MENU DEVELOPMENT AND TRAINING

Your beverage menus should be a reflection of the bar itself; celebrating the concept, driving sales and keeping your bar on your guest's lips.

OUR PROCESS

We will create a bespoke cocktail selection based on the outlet concepts with an equal product mix of classic, contemporary and innovative signature cocktails.

Our program designs the beverages in conjunction with the bar team giving them ownership and passion in the beverage product as well as a keen understanding of the building blocks of the drinks that are created.

We work closely with kitchens using ingredients and supplies already prevalent through the food operation to ensure a bond between the food and beverage product.

Once finalised, the cocktails are fully trained for the correct recipes, procedures, presentations and story behind the drink.

We conduct a full equipment, glassware and spirit audit and review of bar efficiency and create detailed outlet-specific operations manual documenting all beverage standards, recipes and operating procedures.

DURATION:

2 Weeks

NUMBER OF OUTLETS:

1-3

COST:

£5800

PROFESSIONAL BARTENDER COURSE

All the skills and theory to turn your staff into consummate professionals.

REQUIREMENTS:

None.

THE PEOPLE

Understanding the role of the bartender; customer service; the customer journey; observation, anticipation and communication.

CASE STUDIES

"We now present a one of a kind beverage program in the Kingdom of Saudi Arabia, the perfect fusion between traditional values and modern drinks culture."

Q'BARA

THE FORT COMPLEX, WAFI CITY, DUBAI

Beverage management for a contemporary Arabesque restaurant and lounge with five separate bars covering 13,000 square feet and 400 covers.

We recruited, trained, and managed a team of 15 dedicated beverage staff as well as aided in the development of the venue concept itself.

Following the creation of an entire beverage menu concept, we oversaw the execution of a comprehensive pre-opening beverage training strategy.

AWARDS

'Best New Bar', 2014 | TimeOut Dubai Nightlife Awards (Highly Commended).

'Best Newcomer', 2014 | TimeOut Dubai Restaurant Awards

'Best Restaurant of the Year', 2014 | Arabian Business Awards

'Best Middle Eastern Restaurant', 2014 | BBC Good Food Awards

'Favourite Middle Eastern Restaurant', 2015 | What's On Dubai Awards

'Best MENA Restaurant', 2015 | Timeout Dubai Restaurant Awards

We developed a unique and widely acclaimed cocktail selection with an equal focus on non-alcoholic options. In addition, we incorporated techniques such as **rotary vacuum evaporation** and sous vide infusion to take the drinks a step further.

By liasing with beverage suppliers, we provided the venue with **exclusive brands and imports**. What's more, we also sourced **bespoke glassware** and equipment such as rotary evaporators, sous vide machines, smoking guns, and ice carving tools.

The signature "Za'groni" cocktail was selected as part of **Campari's Worldwide Negroni** marketing campaign.

INTERCONTINENTAL PARK LANE

LONDON, UK

The Intercontinental is a modern luxury hotel in the heart of Mayfair, London. Our consultants created and developed a full cocktail menu inspired by the Royal Collection - one of the largest and most widely distributed collections of art in the world. This was employed in conjunction with full bar and cocktail training, as well as operational support and product development.

INTERCONTINENTAL SONAR

KOLKATA, INDIA

A short drive outside of Kolkata, the Intercontinental Sonar is an elegant and paradisaical location. Here, we created and employed a bespoke cocktail menu as well as carried out full training for the bar staff. We also advised in product development and provided operational support.

SALT OF PALMAR

MAURITIUS

A new brand launch on an island resort featuring a sustainable and local product. We provided pre-opening and opening support, bar skills training, as well as designing all-inclusive and premium beverages for the resort.

PIERCHIC, JUMEIRAH RESTAURANT GROUP

DUBAI, UAE

Pierchic are a restaurant group that requested a bespoke training program. We developed a "train-the-trainer" system for them while also completing cocktail menu creation and providing pre-opening and opening support.

GOLD ON 27

BURJ AL ARAB, DUBAI

We developed the beverage concept around the iconic nature of the Burj Al Arab as a flagship for Dubai. The cocktail stories wound around the growth of the city from a simple pearling village perched on the edge of the largest continuous stretch of sand desert on earth, to one of the fastest moving and most dynamic cities in the world.

To coincide with the menu, we designed and commissioned several lines of **bespoke, artisanal glassware** and presentation pieces, including a **signature Burj al Arab shaped ice mould**. In order to elevate the cocktail offering beyond the ordinary, we incorporated contemporary and scientific production techniques such as **rotary vacuum evaporation, centrifugal clarification, sous vide ageing, pressure infusion, nitrous foam, smoking, and aromatised fogs**.

JUMEIRAH, NANJING

NANJING, CHINA

As part of this grand hotel opening, we provided bespoke cocktail menu creation, starting ahead of time with off-site development. We also implemented bar training in dual languages across the five venues within the property. In addition, we assisted in product development, recommendations, and pre-opening support.

RAFFLES, SHENZHEN

SHENZHEN, CHINA

An iconic and luxurious urban hotel opening with world famous bar concepts. This project required a signature cocktail menu and bar training in dual languages. In addition, we assisted in product development, recommendations, and pre-opening support.

TAMBA

WORLD TRADE CENTRE MALL, ABU DHABI

Tamba is an Indian-inspired restaurant and bar aspiring to reimagine flavours with a contemporary twist, while maintaining the social element of traditional Indian dining. They required turnkey opening support from us and we were delighted to provide this through comprehensive training, coordinating the set up and organisation of the bars to maximise efficiency and aesthetic appeal, creating a bespoke operational manual, and developing a signature cocktail menu for them. We also provided operational support throughout pre-opening events and further through the transition from project phase to operation.

For the cocktail menu we developed a **signature serveware selection**, including a base range and individual concept pieces. We also designed and commissioned certain signature pieces of equipment, including **branded ice stamps**.

In order to set the menu apart, we incorporated contemporary production techniques such as **sous vide infusion, lecithin foams and nitrous foams**. For these techniques we sourced the equipment to use, including extra pieces such as smoking guns and ice carving tools.

Trainees at Tamba were given additional training to not only certify them with a FBS accreditation but also UKBG and IBA also.

THE NAUTILUS

MALDIVES

A stunning 5 star remote island resort in the Maldives. Here, our consultants not only developed a signature cocktail menu, but also assisted in sourcing equipment, developing products, creating a bar manual, and carrying out full bar skills training for the team.

RAFFLES ISTANBUL

TURKEY

A luxury hotel opening with six restaurants and bars, including world famous concepts such as the "Writer's bar" and "Long bar". Our consultants delivered bar and cocktail training, as well as developed a completely bespoke cocktail menu.

RADISSON BLU AJMAN

AJMAN, UAE

Part of a five star hotel opening featuring seven restaurants and bars. This project required cocktail menu creation, bar training, OS&E and glassware sourcing, as well as bar manual creation and overseeing an opening program.

RADISSON BLU, ROYAL ASTORIJA

VILNIUS, LITHUANIA

A corporate development program in an established urban property. This was a shorter project of 2 and a half weeks, delivering cocktail menu creation, bar training, and product development.

FUME

PIER 7, DUBAI MARINA

Fume is an American-style neighbourhood eatery boasting a 150 cover bar and restaurant. We curated the beverage operation for them, recruiting a team of 6 dedicated beverage staff, aided in the development of the venue concept, and commissioned signature pieces for them. This includes a retro hand-cranked ice crusher pictured above.

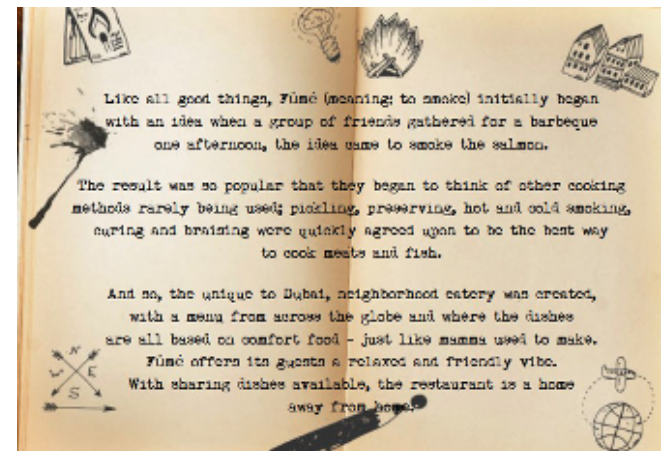

We developed a fun and unusual cocktail selection that fell in-line with the venue concept itself. For this we incorporated contemporary production techniques such as sous vide infusion, smoking, pressure infusion, and nitrous foam.

For the development and training we sourced equipment such as sous vide machines and smoking guns, carried out a comprehensive pre-opening training plan, and created a bespoke operational manual to for use after the consultation.

To coincide with the cocktails, we also created the beverage menu concept and layout, featuring off-the-wall and humorous cocktail descriptors to generate online discussion, promote positive interaction and ultimately drive sales and revenue.

JUMEIRAH AL WATHBA

ABU DHABI, UAE

A luxury hotel resort and spa opening in the desert featuring seven restaurants and bars. This project required cocktail menu creation, bar training, OS&E and glassware sourcing, as well as bar manual creation and overseeing an opening program.

FOUR SEASONS BURJ ALSHAYA

KUWAIT CITY, KUWAIT

A contemporary and luxurious dry hotel featuring six restaurants and bars. This project saw the creation and implementation of a complete and bespoke non-alcoholic beverage program, including developing a signature cocktail menu, sourcing glassware and fully training the team.

REQUEST EXAMPLES OF OUR DESIGN WORK

In addition to our consultancy services, we offer menu design, logo and identity design, and labelling and packaging design.

If you are interested in seeing examples of our work, please contact us for our separate design brochure.
